ALICE County Reports with ZIP and Place Data

Counties are the core geography for ALICE data: They reveal variations often masked by statewide averages, and the data is reported regularly and reliably.

ALICE IN JEFFERSON COUNTY

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mployed — households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county. While conditions have improved for some households, many continue to struggle, especially as wages fail to keep pace with the rising cost of household essentials (housing, child care, food, transportation, health care, and a basic smartphone plan). Households below the ALICE Threshold — ALICE households plus those in poverty — can't afford the essentials.

Financial Hardship is Not Equally Distributed

By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the largest demographic groups. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be ALICE than others.

Households by Race/Ethnicity, Jefferson County, Washington, 2024

Notes: All racial categories except Two or More Races are for one race alone. Race and ethnicity are overlapping categories; the AI/AN (American Indian/Alaska Native), Asian, Black, Hawaiian (includes other Pacific Islanders), and Two or More Races groups may include Hispanic households. The White group includes only White, non-Hispanic households. The Hispanic group may include households of any race. Because household poverty data is not available for the American Community Survey's race/ethnicity categories, annual income below $15,000 is used as a proxy. In 2020, the U.S. Census Bureau changed how it asked about race/ethnicity and how responses are coded. Due to this change, the Census Bureau recommends caution in comparing racial/ethnic data from before and after 2020.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the current economy and includes housing, child care, food, transportation, health care, technology, and taxes. It does not include savings for emergencies or future goals like college or retirement. In 2024, household costs in every county in Washington were well above the Federal Poverty Level of $15,060 for a single adult and $31,200 for a family of four.
