APPENDIX A: 2025 REGIONAL TRANSPORTATION PLAN PROJECT LIST 15

INTRODUCTION

The Regional Transportation Improvement Program (RTIP) is a presentation of transportation projects proposed for implementation during a six-year period for the years 2026 through 2031. The PRTPO RTIP is made up of projects with federal funding, State of Washington funding and local funding from around the PRTPO Region. The RTIP describes the project, provides its projected costs, schedule for completion and associated funding sources. Importantly, The RTIP is consistent with the adopted Regional Transportation Plan (RTP) which can be located under the PRTPO Plan & Studies at: https://www.prtpo.org/documents

The PRTPO Region is made up of a four-county area (Clallam, Kitsap, Jefferson and Mason Counties) and members include cities, counties, tribal nations, ports, and transit agencies. The projects listed in this document reflect members who choose to submit projects for review at the PRTPO Region. Kitsap County Members submit their RTIP projects to the Puget Sound Regional Council (PSRC). The RTIP is not a complete list of projects for each member jurisdiction.

DEVELOPMENT OF THE RTIP

The RTIP is an annual process that is brought to the PRTPO Executive Board for consideration in September of each year. The RTIP is required by RCW 47.80.023. Specifically, the RCW requires the RTPO to: *"develop, in cooperation with the department of transportation, operators of public transportation services and local governments within the region, a six-year regional transportation improvement program which proposes regionally significant transportation projects and programs and transportation demand management measures. The regional transportation improvement program shall be based on the programs, projects, and transportation demand management measures of *regional significance as identified by transit agencies, cities, and counties pursuant to RCW 35.58.2795, 35.77.010, and 36.81.121, respectively, and any recommended programs or projects identified by the agency council on coordinated transportation, as provided in chapter 47.06B RCW, that advance special needs coordinated transportation as defined in RCW 47.06B.012. The program shall include a priority list of projects and programs, project segments and programs, transportation demand management measures, and a specific financial plan that demonstrates how the transportation improvement program can be funded. The program shall be updated at least every two years for the ensuing six-year period."*

**Regionally significant project means a transportation project (other than projects that may be grouped in the TIP and/or STIP or exempt projects as defined in EPA's transportation conformity regulations (40 CFR part 93, subpart A)) that is on a facility that serves regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, or employment centers; or transportation terminals) and would normally be included in the modeling of the metropolitan area's transportation network. At a minimum, this includes all principal arterial highways and all fixed guideway transit facilities that offer an alternative to regional highway travel.*

The RTIP is presented to the WSDOT after Executive Board approval for inclusion in the Statewide Transportation Improvement Plan (STIP). Only projects with secure funding are included in the STIP. Projects with planned funds are left in the RTIP until they are ready to move from planned to secure. In the project descriptions a letter "P" is found on the left side of the funding description for planned funding while an "S" is for secure funding.

Once funds are secured, the RTPO forwards the projects to WSDOT for inclusion into the Statewide Transportation Improvement Program (STIP). The STIP has a public review period similar to the RTIP. The latest STIP can found at: https://www.wsdot.wa.gov/LocalPrograms/ProgramMgmt/STIP.htm

A summary table is provided on page 4 detailing the funding totals by categories of federal, state and local funds by jurisdiction.

POLICY FOR AMENDMENTS

New projects or those requiring amendment beyond the WSDOT administrative thresholds are brought before the Executive Committee for discussion and forwarding to the Executive Board agenda. Projects needing an expedited approval process are brought before the Executive Board without Executive Committee review for consideration no later than 14 calendar days before the next scheduled Executive Board meeting. Projects submitted less than calendar 14 days prior to the Executive Board meeting will be forwarded to the next scheduled Executive Committee meeting for consideration.

PRTPO coordinators track projects by the date of Executive Board approval.

Existing projects may continue to be amended using WSDOT amendment guidelines.

PRTPO coordinators will update the RTIP once the Executive Board has approved the project.

APPENDIX A: 2025 REGIONAL TRANSPORTATION PLAN PROJECT LIST

PRTPO

Regional Transportation Plan

for the

Peninsula Region

RTP Project List

Appendix A of the 2026-2031 RTIP

This section may be referred to as Appendix A of the Regional Transportation Improvement Program, or it may be referred to as the RTP Project List. Both are recognized by PRTPO as valid references.

Introduction

PRTPO maintains a Regional Transportation Improvement Program (RTIP) and a Regional Transportation Plan (RTP) for the Peninsula Region, as required by Washington state law codified in RCW 47.80.

As a part of its regional planning approach, PRTPO develops an RTP project list. This list features near-term investment priorities put forward by PRTPO members from their adopted Transportation Improvement Programs, Tribal Transportation Improvement Programs, or Capital Improvement Programs and Scheme of Harbor Improvements. These projects are identified by members as likely agency funding pursuits in the next year or two, and reflect the latest understanding of cost, revenue, and timing for project delivery.

Inclusion on PRTPO's RTP project list affords the public and other regional stakeholders an opportunity to review these planned projects within a regional context, before agencies pursue their individual funding efforts, and signals to funders that these are near-term funding needs for the Peninsula Region.

Planned projects cannot proceed without additional revenue. Sponsors of RTP projects intend to pursue grants and earmarks from a variety of sources for these projects, likely in the next funding cycle or two. If successful, the funding support they receive will make incremental progress on regional policy priorities while generating a range of benefits for the traveling public.

Projects Address Regionally Significant Concerns

Projects on this list address one or more regionally significant transportation concerns from the RTP:

- Make the transportation system safe for all system users
- Make the transportation system operate more efficiently
- Maintain a State of Good Repair
- Eliminate barriers to access
- Reduce growth in per capita vehicle miles traveled
- Support strong economies and economic opportunity
- Minimize transportation system impacts on the environment
- Maximize transportation-land use coordination

RTP projects may be on Highways of Statewide Significance, Highways of Regional Significance, or any part of the local or tribal transportation system, or on federal or state lands. They may include capital investments, operating investments, preservation programs, vehicle procurement, charging equipment, facilities, and planning activities, and can address any mode of travel in the region. Together, each of these projects contributes to the development of an integrated, multimodal regional transportation system.

Opportunity to Review Proposed Projects

Projects proposed for the RTP Project List come from the six-year Regional TIP (of PRTPO or PSRC), or from an adopted Tribal TIP or port Capital Improvement Program / Scheme of Harbor Improvements. Projects from any of those programs are subject to review and approval at the individual agency level.

To provide the public with another opportunity to view those same projects before they are adopted into the six-year Regional TIP each year, PRTPO conducts a round of public review that provides a regional look at the six-year list of projects put forward by its members in Clallam, Jefferson, or Mason Counties. This review includes the draft RTP Project List, which constitutes Appendix A of the RTIP.

The RTP Project List in Appendix A is a subset of projects from the RTIP, from Tribal TIPs, or from port district Capital Improvement Programs / Schemes of Harbor Improvements. This gives the public an opportunity to review and comment on all the projects in PRTPO's six-year RTIP, and to recognize which ones have been singled out on the RTP Project List by members as likely funding pursuits in the next year or two. This regional review includes PRTPO's Technical Advisory Committee and Executive Board, prior to adoption.

The adopted RTP Project List will remain in effect for the full calendar year following adoption. It will be replaced by the project list in Appendix A of the following year's adopted RTIP, and so on into the future.
